Subject: Elections to ISCA Executive Committee – UFOLEP's nomination

ISCA's vision of sport for all has been close to UFOLEP's since 1995. For this reason, UFOLEP has always been proud to be an ISCA member.

UFOLEP is a multisport federation representing 10000 associations and 400000 members which aims to federate sport associations and organize competitions at local, regional and national levels but also to develop (as the sport sector of the Ligue de l'enseignement) an educational project around the idea of making each citizen, through sport activities accessible to all and a citizen aware of nowadays issues. As a consequence UFOLEP has been invested in international work for many years now, working even more closely with ISCA these last few years. The organisation of various events such as the European Youth Forum in 2008, ISCA MOVE CONGRESS in 2011 and different youth trainings (ACTIVE, SWELL, ToT...) as well as UFOLEP's participation in various ISCA projects (EuroVoiNet, GGGS, ActiveAge, Active Network...) attest the will of UFOLEP of getting more and more involved in the promotion of sport for all at an international level, despite recent challenges on this subject.

Therefore UFOLEP wishes to nominate its president, Philippe MACHU, for the position of ISCA Executive Committee member.

Philippe MACHU has always been a strong promoter of sport for all, defending a vision where sport is a right for everyone and thus accessible to all despite their age, social and geographical origin.

Yours sincerely,

Pierre Chevalier  
National Director
