

## **How the ISCA member organisation, which the candidate is related to, can support the candidate's work in the ISCA Executive Committee?**

USEP school sports federation is a movement structured in 22 regional committees (one for each region) and 104 departmental committees (one in each department). It had developed an extensive national net. So, all national operations get an echo throughout its 10 000 local associations. It is also an advantage for developing international life.

The development of USEP international life is relatively recent, more than 15 years but it took off with the creation of ISCA which permitted a multitude of contacts with other associations. ISCA has acted as a catalyst for international life USEP. It is clear that we are very committed to the ISCA and the presence of an USEP member in ISCA Executive Committee namely Jean-Claude Arnaud for us is paramount.

After a year of break, USEP rebuilt an international group that has the full support of President and Director Committee. It consists of three persons whose Jean-Claude Arnaud who is involved for more than 12 years in USEP international life and who got a very strong experience. Thus, there is a permanent link between the national USEP, the international group and ISCA Executive Committee. This will allow for USEP to become more involved in projects developed by ISCA and have a response time reduced at the proposals for action of ISCA.

We believe that now everything is in working order for a good development of international life USEP and USEP is in good capacity to support our candidate Jean-Claude Arnaud. We hope he could be elected, it will be a very profitable lever for USEP but also for ISCA.
