

TONY LLOP

Education

- Graduated in Sport Sciences by the Institut Nacional Educació Física (INEFC) in the city of Barcelona and Master in Non-profit sport organisations by the Faculty of economics in the University of Barcelona

Work experience

Professionally, I am managing sport centres since 1994, when I was nominated by UBAE sport organization as Director of one of the biggest sport centres in the city of Barcelona.

My professional life has been developed in this organization since 1991. On that time, I was employed as instructor of fitness activities, sharing this occupation with my studies in the Faculty of Sports in Barcelona.

During my career, I have been responsible of different sport centres, leading teams and activities.

In 1995, UBAE following its international strategy led, with other organizations, the constitution of the European Confederation Sport and Health, CESS; as a tool to promote the physical activity as a habit of health in Europe. From this moment, UBAE has been involved in different international organizations and I have taken active role in the majority of them. UBAE has been member of ISCA since its foundation. I become member of the Executive Committee of ISCA in 2011.

At the same time, I have had the opportunity to share my knowledge and experience in courses and lectures in the field of sport management, and activities related to sport facilities management in Europe and Latin America.
